a **Define the comparison**

Feasible options A / B — Same horizon · Relevant baseline

b **Keep consequences visible in their own units**

Resources + time	Health + function	Experience	Capability + agency
Net income	Symptoms	Enjoyment or distress	Independent ability
Hours and activities	Daily functioning	During and after use	Goals and discretion

c **Appraise differences against personal priorities**

Which gains? Which burdens? When? For whom?

Evidence and uncertainty accompany every comparison.
