a **Define the comparison**

Feasible options A / B

Same horizon · Relevant baseline

b **Keep consequences visible in their own units**

Resources + time

Net income
Hours and activities

Health + function

Symptoms
Daily functioning

Experience

Enjoyment or distress
During and after use

Capability + agency

Independent ability
Goals and discretion

c **Appraise differences against personal priorities**

Which gains? Which burdens? When? For whom?

Evidence and uncertainty accompany every comparison.
